

Hello! My name is André. I'm a Front-end enthusiast based in Lisbon, Portugal.  
I'm passionate about the Human interactions with the Application.  
Over the years I've worked in different environments, from small to large scale companies and projects. My main focus has been React and Angular.

I got to know cloudflare through linkedin contacts and through my own research on the internet. This job seemed quite interesting and challenging, which is exactly what I'm looking for.
